Citi Bike Jersey City, 2019-2024. Naive growth is 2.6x; like-for-like (same 49 stations) is +31%. Most headline growth is the network getting bigger.
Note: pct_electric jumps from 13% to 59% in 2024 because the feed changed how it labels bikes on 1 Jan 2024, not because the fleet changed.

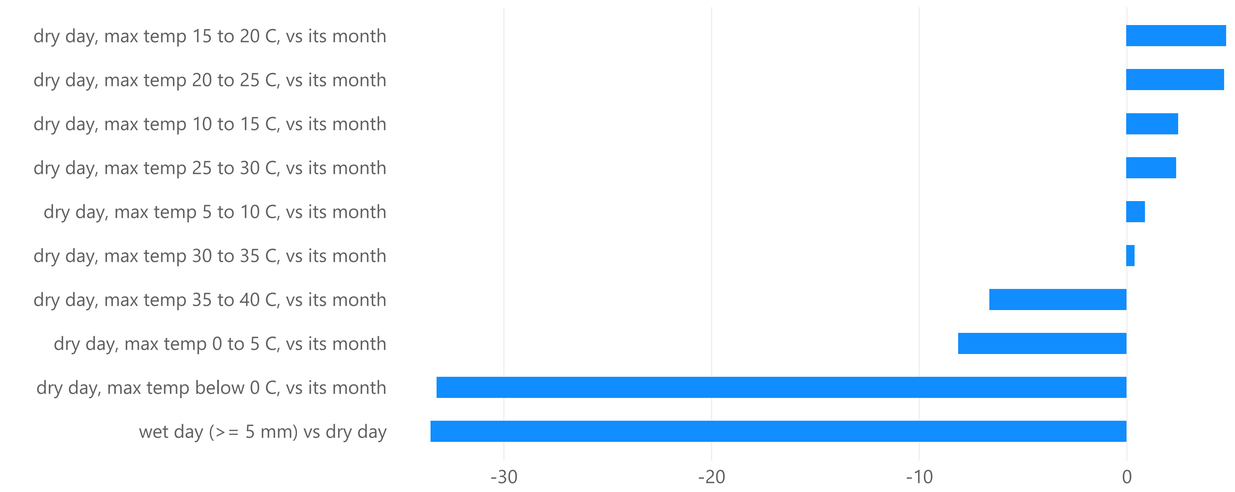

Naive growth is 2.6x; like-for-like is +31% (index, 2019 = 100)

Monthly Jersey City trips (bars) vs average max temperature, C (line)

Weather effect: % change in daily trips (rain costs about a third)

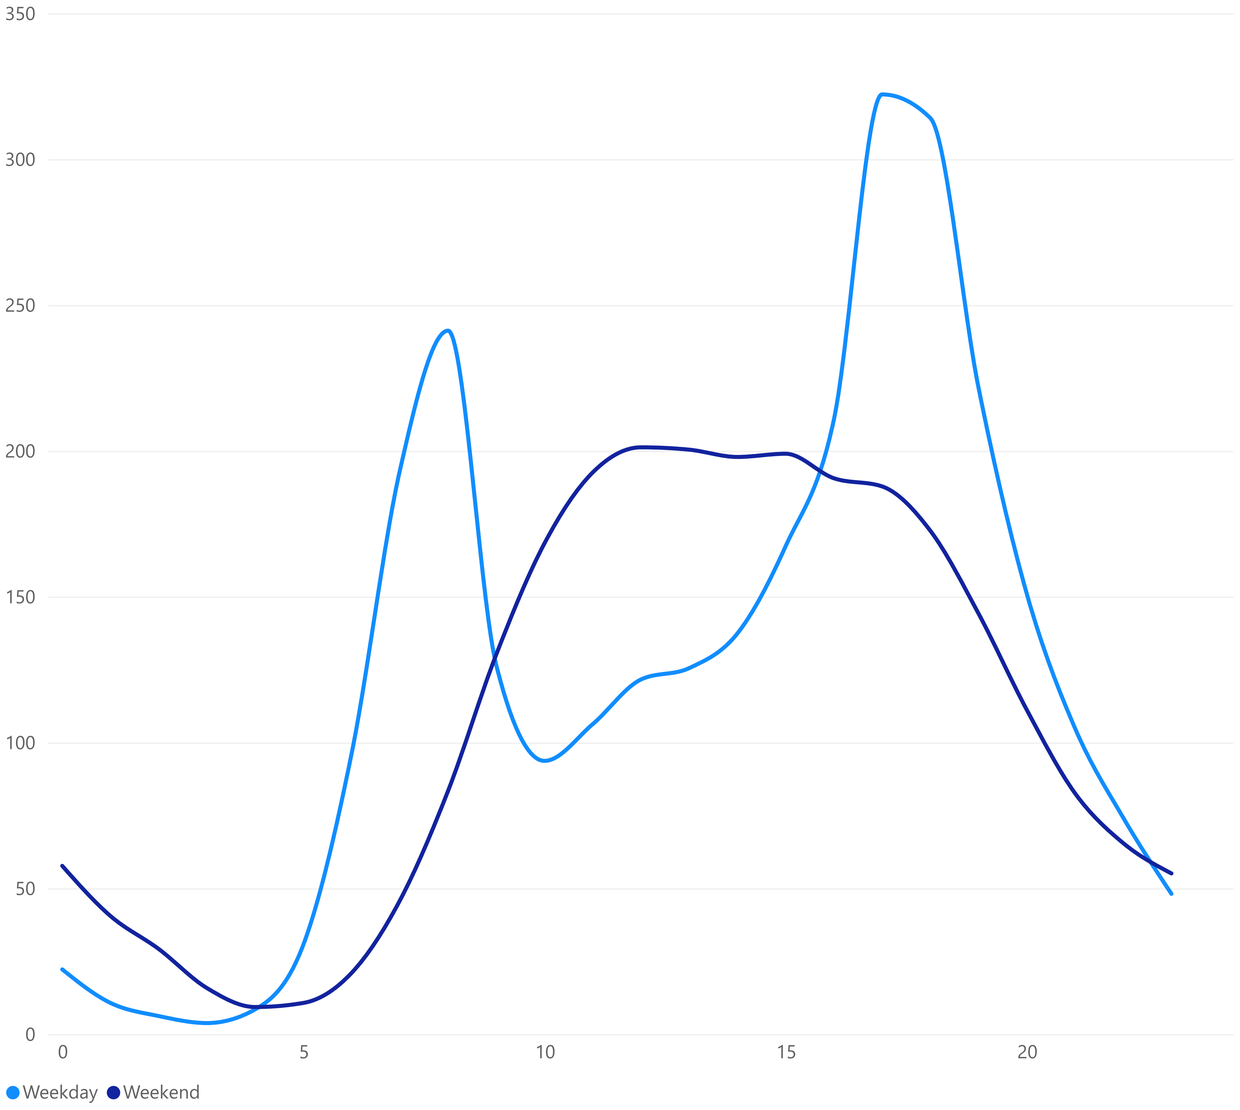

Year	Trips	Casual riders %	Electric % (see note)	Median ride, classic (min)
2019	404683	10.60	0.00	5.80
2020	336382	31.20	0.00	10.20
2021	626997	40.50	20.60	8.80
2022	873610	34.40	29.00	7.50
2023	962432	26.20	13.30	6.40
2024	1041264	24.20	59.00	6.70
